Alex Example

alex@example.com · github.com/example · Example City

EDUCATION

BSc Computer Engineering – Universidad de Ejemplo

Expected graduation: June 2027

- Relevant courses: algorithms, operating systems, distributed systems, databases, compilers.

EXPERIENCE

Software Engineer Intern @ Example Labs Jun 2025 – Sep 2025

- Built internal REST APIs in Python and SQL used by three product teams.
- Added CI checks and Docker images that cut deployment time in half.

PROJECTS

TaskFlow – Open-source task manager deployed in production with real users

- FastAPI backend, React frontend, PostgreSQL, Docker and CI/CD; monitored and live since 2025.

Route Planner – A* path planning library in C++ with benchmarks

- Graph search with heuristics, unit tests and profiling.

SKILLS

Python, Java, C++, TypeScript, React, FastAPI, PostgreSQL, SQL, Git, Linux, Docker, algorithms and data structures.

LANGUAGES

Spanish (Native), English (C1), German (Basic)
